

# Medical Coding

- ❑ Training by 15+ years experience USA certified coders
- ❑ Comprehensive syllabus on all the body systems and medical coding guidelines
- ❑ Daily homework, Weekend exams, and Final Grand Test
- ❑ Practicals on live charts
- ❑ Special focus on Telugu-medium students
- ❑ Resume Preparation and Mock interviews
- ❑ 100% job assistance (job support until you get placement)

### **What is medical coding?**

Medical coding is the translation of healthcare diagnoses, procedures, services, and supplies into universal numerical and/or alphanumeric codes. The diagnoses and procedure codes are taken from medical record documentation, such as transcription of physician's notes, laboratory and diagnostic tests, etc.

### **What is the purpose of medical coding?**

These medical codes are used on the claim forms submitted to the insurance companies, such as Medicare and Medicaid for reimbursement and on the statistical reports, which are used by the Federal Government of USA. These are also used internally at health care facilities for research and marketing purposes.

### **How the medical codes to be assigned?**

The medical coder has to study the medical record and understand the patient's condition in detail and has to assign the appropriate numerical and/or alphanumeric codes by following the guidelines and client requirements keeping in mind. Diagnosis codes are found in the International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM Volumes 1 and 2). Inpatient procedure codes are found in ICD-10-PCS. Outpatient services and procedure codes are found in the Current Procedural

Terminology (CPT). HCPCS (pronounced "hik picks") codes are used for transportation services, Medical and Surgical Supply codes, Durable Medical Equipments.

### WHAT IS CPC EXAM?

Certified Professional Coder (CPC) is the gold standard, nationally recognized certification, is being conducted by AAPC.

- 100 multiple choice questions (70 pass mark)
- No negative marking
- 4 hours to finish the exam
- \$720 exam fee
- Two attempts will be given
- Open book exam

### Is CPC mandatory to get a job in medical coding?

No. Certification is not mandatory to get a job in medical coding, but we strongly recommend CPC as certified coders get job very quickly in MNCs with high salaries (approximately 25k for a fresher).

There are some companies recruiting non-certified candidates also who is having good knowledge. Non-certified coders get approximately 12k to 15k as a fresher.

**COURSE NAME:** MEDICAL CODING WITH CPC

Duration: 3 months

Daily: 1:30 hours

Total six modules

**Module 1: Comprehensive training on Anatomy, physiology, and pathology of all the body systems:**

- Integumentary system
- Skeletal system
- Muscular system
- Immune system
- Lymphatic system
- Cardiovascular system
- Urinary system
- Digestive system
- Respiratory system
- Nervous system
- Endocrine system
- Reproductive system

**Module 2: Medical Terminology**

- Rootwords
- Prefixes
- Suffixes
- Combining vowels
- Medical abbreviations

**Module 3: ICD-10-CM Official Guidelines for Coding and Reporting**

Section I:

A. Conventions for the ICD-10-CM

B. General Coding Guidelines

C. Chapter-Specific Coding Guidelines

- Chapter 1: Certain Infectious and Parasitic Diseases (A00-B99)
- Chapter 2: Neoplasms (C00-D49)
- Chapter 3: Disease of the blood and blood-forming organs and certain disorders involving the immune mechanism (D50-D89)
- Chapter 4: Endocrine, Nutritional, and Metabolic Diseases (E00-E89)

- Chapter 5: Mental, Behavioral and Neurodevelopmental disorders (F01 – F99)
- Chapter 6: Diseases of the Nervous System (G00-G99)
- Chapter 7: Diseases of the Eye and Adnexa (H00-H59)
- Chapter 8: Diseases of the Ear and Mastoid Process (H60-H95)
- Chapter 9: Diseases of the Circulatory System (I00-I99)
- Chapter 10: Diseases of the Respiratory System (J00-J99)
- Chapter 11: Diseases of the Digestive System (K00-K95)
- Chapter 12: Diseases of the Skin and Subcutaneous Tissue (L00-L99)
- Chapter 13: Diseases of the Musculoskeletal System and Connective Tissue (M00-M99)
- Chapter 14: Diseases of Genitourinary System (N00-N99) 59
- Chapter 15: Pregnancy, Childbirth, and the Puerperium (O00-O9A)
- Chapter 16: Certain Conditions Originating in the Perinatal Period (P00-P96)
- Chapter 17: Congenital malformations, deformations, and chromosomal abnormalities (Q00-Q99)
- Chapter 18: Symptoms, signs, and abnormal clinical and laboratory findings, not elsewhere classified (R00-R99)
- Chapter 19: Injury, poisoning, and certain other consequences of external causes (S00-T88)
- Chapter 20: External Causes of Morbidity (V00-Y99)
- Chapter 21: Factors influencing health status and contact with health services (Z00-Z99)
- Chapter 22: Codes for Special Purposes (U00-U85)

Section II. Selection of Principal Diagnosis

Section III. Reporting Additional Diagnoses

- Previous conditions
- Abnormal findings
- Uncertain Diagnosis

#### Module 4: Current Procedural Terminology (CPT)

- Evaluation and Management (E&M)
- Anesthesiology
- Surgery
  - 10,000 series
  - 20,000 series
  - 30,000 series
  - 40,000 series
  - 50,000 series
  - 60,000 series
- Radiology
- Pathology and Laboratory
- Medicine

#### Module 5: Healthcare Common Procedure Coding System (HCPCS)

#### Module 6: Compliance and Regulatory affairs

REGISTRATIONS ARE OPEN FOR NEW BATCHES
